TO WHOM IT MAY CONCERN

RE: Reference for Mr. Jai

As an academic member of the Department of Computer Science and Information Systems at the University of Limerick, I have known Mr. Jai since September 2021, when he was a student in our B.Sc. in Computer Systems program. He took my Database Systems module and achieved an excellent grade.

Later, in the 2023/24 academic year, I had the opportunity to be his Data Mining lecturer and also supervised his final year project, titled "Restaurant Bot." Throughout his project work, Mr. Jai demonstrated exceptional enthusiasm, motivation, and a commendable work ethic. He successfully brought the project to completion, showcasing innovative thinking and the ability to design and implement complex software system solutions.

I am confident that Mr. Jai possesses a strong foundation in computer science and would excel as a master's student at your institution. I am pleased to provide my highest recommendation for him.

Should you require any further information regarding this recommendation, please do not hesitate to contact me.

Sincerely,

Assoc. Prof. Nikola S. Nikolov
