Jai

👤 Profile

Motivated Computer Science student poised to leverage a solid foundation in software development, problem-solving, and innovative technology design. Known for an unwavering commitment to achieving excellence and a keen ability to apply theoretical knowledge in practical settings. Demonstrates a strong profciency in programming languages including Java, Python, and C++, complemented by hands-on experience in front-end and back-end development projects. Brings a proactive approach to learning new technologies and frameworks, aiming to contribute to dynamic development teams. Eager to further develop skills in a challenging environment, aiming for signifcant contributions to project success through diligent work and a continuous improvement mindset. Excellent communicator and team player, ready to translate complex technical concepts into easily understandable terms.

🎓 Education

BSC Computer Science,, University of Limerick, Limerick

September 2020 — August 2024

Graduated with Second Class Honors, Grade 2

- Developed a strong foundation in algorithms, data structures, programming languages, software engineering, database management, and artificial intelligence.
- Gained hands-on experience through projects involving software development, data analysis, and machine learning.
- Acquired knowledge in computer ethics and system architecture.
- Conducted and presented a comprehensive final year project, showcasing research and practical application skills.
- Participated in various practical labs and group projects, enhancing teamwork and problem-solving abilities.

💼 Employment History

Engineering Intern at Merlin Brands, Remote

September 2024 — March 2025

- Collaborated with development teams to design, implement, and test software applications.
- Engaged in code reviews and provided constructive feedback to enhance code quality.
- Developed user-friendly interfaces using HTML, CSS, and JavaScript, ensuring optimal user experience.
- Assisted in database management and optimisation using SQL to improve application performance.
- Contributed to Agile development processes, participating in sprint planning and daily stand-ups.

IT support Specialist at Chandhok Global Inc, Remote
June 2024 — January 2025

- Provided technical support for hardware and software issues, ensuring timely resolution and customer satisfaction.
- Assisted in the development and maintenance of internal software applications, enhancing operational efficiency.
- Collaborated with cross-functional teams to troubleshoot and resolve complex IT challenges, promoting effective communication.
- Conducted training sessions for end-users on new technologies, improving user adoption rates.
- Implemented best practices for IT security and data management, safeguarding company assets.

Server at Aura Indian and Thai Cuisine, Limerick, Ireland
August 2023 — November 2024

- Delivered exceptional customer service in a fast-paced restaurant environment.
- Collaborated effectively with kitchen staff to ensure timely food preparation and service.
- Maintained high standards of cleanliness and organisation throughout the dining area.
- Assisted in training new staff, fostering teamwork and enhancing service quality.
- Handled customer inquiries and resolved issues promptly to ensure satisfaction.

Student Software Developer at L.M. Ericsson, Athlone, Ireland
May 2022 — January 2023

- Engaged in the development and optimization of telecommunications software, focusing on functionality and user experience improvements.
- Worked within a team of experienced engineers, contributing to the design, testing, and deployment of scalable software solutions.
- Gained profciency in cutting-edge technologies and enhanced my coding and debugging capabilities.
- Participated in agile development processes, contributing to sprint planning and retrospective meetings with innovative ideas.
- Aided in streamlining development processes and bolstering software reliability through meticulous testing and feedback implementation.
